In cartoon 1. artist from USA points out the treatment of Jews in Germany is much like the treatment of Blacks in USA.

In cartoon 2 British Prime Minister advices to USA that Nazi Germany is not to be afraid of.

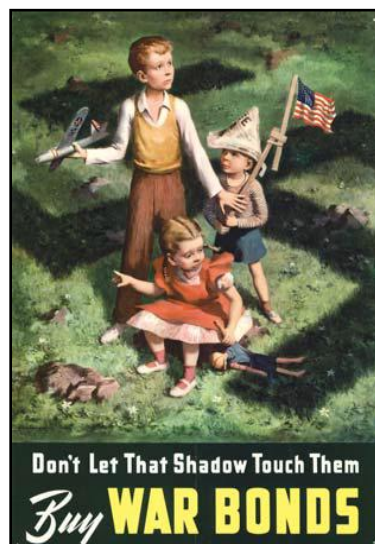

In the first cartoon on the left Nazi Germany is shown as leading people to slavery.

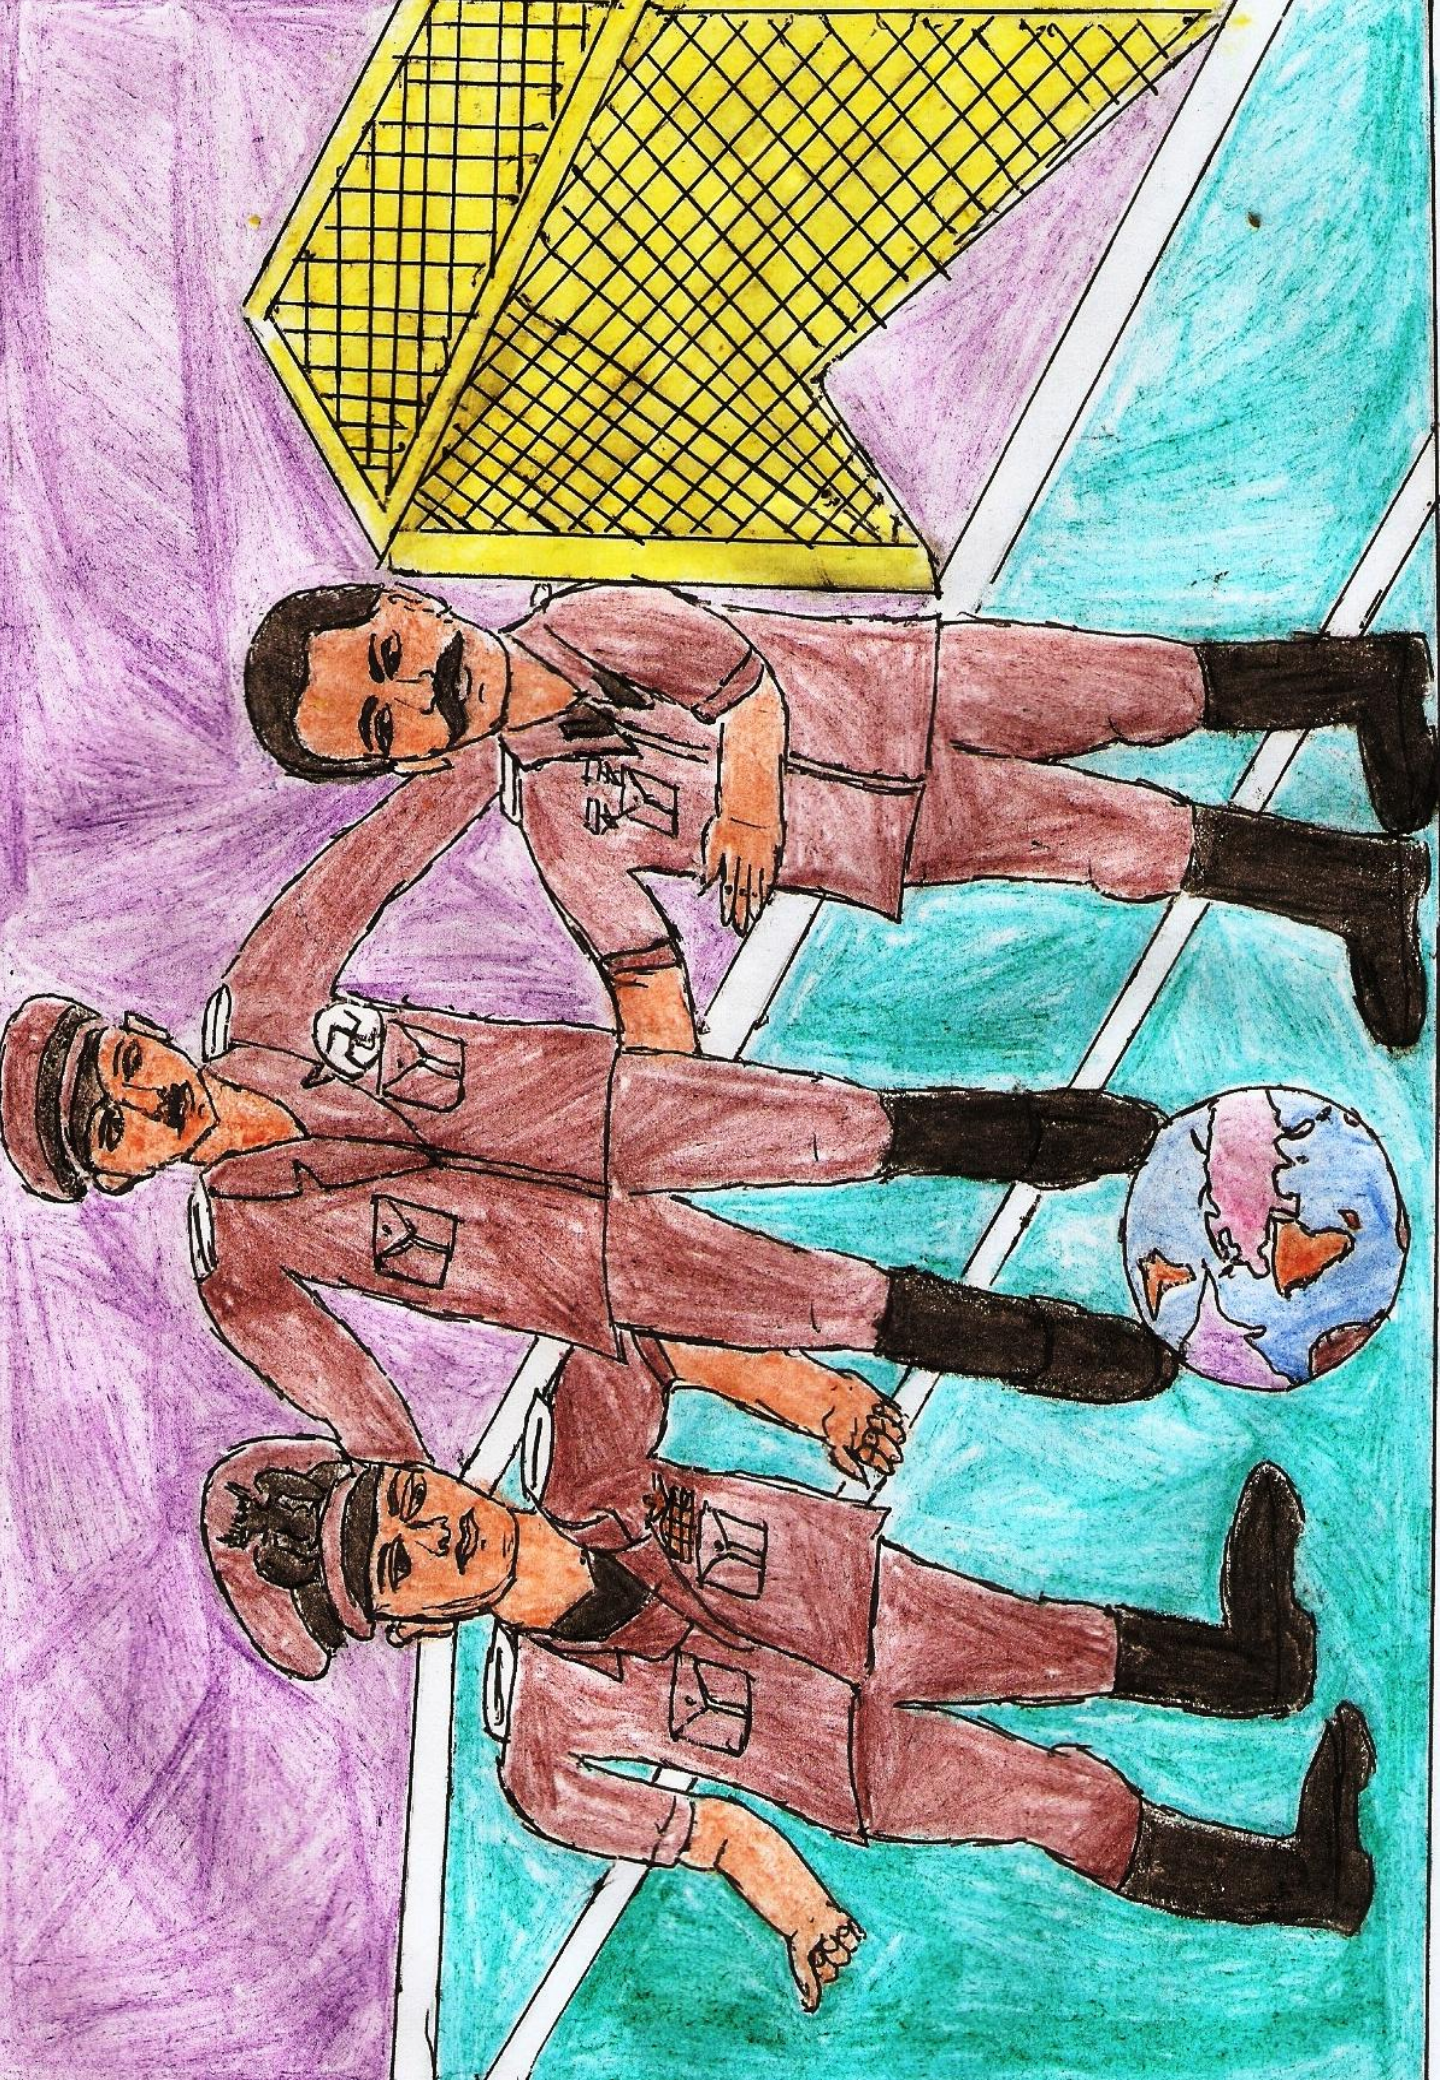

But as you would notice in the second cartoon many people continued to believe the propaganda generated in Germany that were biased towards the Jews.

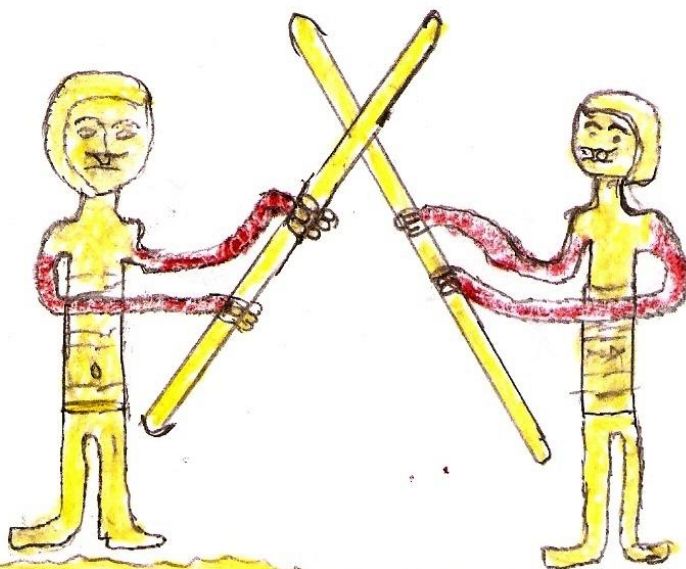

War is expensive and deeply affects the people lives. Two posters in USA were created with the aim of getting people to help their nation in fighting against the Nazi. What can you tell about the images here.

"After world war III"

"Albert Einstein" was thinking the after third world war will be what weapons used to fight.

The world war II after the country on world will be financially decreasing and loss of income. That's why finally in the came war next be fight no weapons are there. weapons to buy not money. But you buy only one weapons. After the war the weapons are enclosed. to buy are "no weapons".

Finally to sticks are your weapons. you fight with the stick. All the peoples were fought in the sticks. The world between wars -1900 -1950 Part II is the weapons but still not weapons in Fourth world war. The economy was the worst hit by the Depression. world war IV but world war was very decreasing in the income on the world position. This is the position of after war III.
