| 20. 0° Longitude | () | b) Commercial crop |
| 21. Delta | () | c) Salva |
| 22. Sugar cane | () | d) Triangle in shape |
| 23. Paddy | () | e) Pacific |

II. Reading the text (given) understanding and interpretation. (10 Marks)

Answer any One of the following questions.

$$1 \times 10 = 10$$

24. Krishna District is one of the most flood prone districts of the state. Every few years when the rains are very heavy in the catchment area the dams get more water than they can hold. Excess water is released by the big dams. Then the flood waters enter the lowlying villages along the rivers. This can be both very destructive and productive. Floods are also caused by cyclones. Which bring heavy rains from the sea along with strong winds which up root trees and cottages.

Q. What are the main reasons of floods ? What are its loses of floods ?

(OR)

In Rythu Bazar some times it is difficult for the farmers to get good space to sell their vegetables. They will be left with some carners. There is no sufficient space for parking vehicles.
