

24-02-2015

Dear Sir,

Sub: Reg. setting up a Digital class room in Govt. schools of Telugu Medium in rural areas by E-Vdiyaloka.

The Volunteer teachers organised by E-vidyaloka.org, Bengaluru will teach Maths, Science and English for Class 6th, 7th and 8th. The classes will be taught on Internet using Skype. The service is provided where teacher student ratio is poor. Number of students preferred is 15 to 20, to have better interaction between student and teacher, since it is operated on one teacher – one subject – one school. The volunteer teachers are from USA, Canada, Australia and India. This needs permission of local MEO. Head Master is the king pin in the installation operation and maintenance. Most important is it must be through one service oriented NGO, who have to co-ordinate with E Vidyaloka, MEO and Schools.

Other stipulations are i) BSNL Internet shall be available / feasibility must be there with 2.0 MbPS speed.

ii) class assistant who can operate computer, internet must be made available. The class assistant will be paid INR1,500/- pm.

iii) About Rs.30,000/- for school to be paid to E-vidyaloka or organise donations to E-vidyaloka.

iv) It is excellent if the monthly expenses can be met by local Panchayat or locals.

Four sessions in three schools in Repalle Mandal, Guntur Dist. and Six sessions in five schools in Tiruvuru Mandal, Krishna Dist. are being successfully run at present as far as Telugu medium is concerned.

[Note prepared by Er. Ravi V S Choudary]

Laxmipuram, Tiruvuru Mandal

Krishna Dist.
