SOCIAL STUDIES PROJECTWORK

1. In the assessment techniques the project has an important place as it is given by every student and a long period of time is given to complete the same.
2. The design of the project has to follow the same criteria as that of the debate.
3. However the project must enable the teacher to be able to convey to the learner that the completion of the project is not the only aim but the process that he follows is important.
4. Often it is seen that the teacher allows the children to submit less than standard work, the teacher may in such a situation provide feedback and allow the student to submit again and show the child alternative ways to organize the work.
5. It would be wrong to think that the project marks are a way to upgrade the poor score that the child already has in the tests etc.
6. This is not entirely a correct view while there is merit that the project must be judged on some very clear standards as listed here.
7. It is also imperative that adults and teachers convey that they expect nothing but good work but all effort must be put to help a child too to achieve the standards.

PROJECT REQUIREMENTS :

1. The project work will be of 10 marks of classes VI to I X.
2. The topics for project work have been specified in the guidelines.
3. However, the list of projects is only suggestive. Teachers and students through mutual discussion can devise their own projects suited to the social, cultural and economic conditions and common environmental issues of their locality.
